

Homework Assignment Week 3 and 4 – Optics and Microscopy, EE 293
Due Tuesday Feb 6th

This assignment is due at the beginning of class 11.40am on Tuesday February 6th 2018 (or before)
If you cannot hand in your homework sheet in class in person, it is OK to email a picture/scan of the sheet with your solution to the Professor: sara@ucsc.edu

Consider a photograph from the High Sierra taken by one of the *f64* group photographers. Assume (and state) a reasonable focal length of the photographer's objective, and based on this calculate what resolution you can expect to see in the photograph.
